

Exculsive Interview

LUCIA

A DATING/RELATIONSHIP EXPERT

Singles would like to have to pleasure of introducing you to Lucia, a true “Kougar.” However, she is not just any “Kougar,” she is in the prime of her career as a dating/relationship expert. She began in 2004 with a local public access radio show in Los Angeles, in addition to a college paper with a column called Campus Circle. That began a trickle effect to a great and growing career. This success has made her known as one of the premier experts in Kougar relationships but not to undermine the fact that she is an expert in dating as well. She has been on shows such as Tyra Banks, Dr.Phil, and many more. Ideas come to her all day and all night and she loves it! Her expertise is supported by 20 years of experience in dating and relationships all over. She continues to pursue her education through the love of reading and has made it mandatory for success on her radio show. She is on it 24/7!

As we all know the “Kougar” reputation has collected a negative connotation to it and she had devoted much of her time to that challenge. Being a “Kougar,” in her opinion is a woman in her prime of maturity, beauty, and success, and not just a woman after young males for sexual encounters. She is excited about educating the public through many different resources. Singles believes in Lucia and supports her 100%!

We wanted some tips from her and here they are:

Singles: What is one most common mistake amongst Kougars?

Lucia: Kougars’ most common mistake is that they try to compete with younger women. A male who wants a Kougar is looking for a successful, educated, and mature woman. Keep that in mind.

Singles: What kind of Kougars are there?

Lucia: There are two types of Kougars: One who may have just gotten a divorce and is only looking for fun, no relationship with a younger male desired. The other is one who would like a younger guy but is open to a relationship.

Singles: Does age matter?

Lucia: Only if you are applying for a social security card. However, keep in mind if you are looking for maturity in a relationship, date males over 25.

Singles: Does the same rules of sex apply for a Kougar as they would for a younger woman?

Lucia: Yes, if you are looking for something more serious and not just a one night stand. (She encourages that taking your time to sleep with someone is important.)

Singles: What do you think of internet dating?

Lucia: It’s great, just take caution. Do a background check of some sort to ensure they are not married.
